WELCOME TO LA PAZ

Welcome to a bay with tranquil waves and spectacular sunsets, where a thousand experiences conspire to make it paradise on earth. This is La Paz, or “Peace”, in Spanish: a destination whose name literally invites you to slow down and feel the magic of nature.

We are a multi-destination that open the doors to a world of adventure. Where else can you swim with incredible marine species like the majestic, yet docile, whale sharks or fun-loving sealions, and dive with the enormous creatures like spectacular giant manta rays or hammerhead sharks. Here you can kayak under a bright orange sky accompanied by a pod of dolphins, fly as high as you want as you kite-surf, surf on the Pacific or chill out on a breathtaking beach. And, as if this wasn't enough, you'll also find charming little towns and a modern culinary offer that has captivated every one of our visitors.

Make La Paz your base of operations for travel to nearby trendy spots like Todos Santos and its neighbor, Pescadero, or participate in one of the famous international tournaments at Los Barriles. If you're looking for something different that combines beach time with adventure, head out for a few days at La Ventana and El Sargento.

This is La Paz, a region with a surplus of character where luxury is found in experiences you never thought possible: glamp beneath a million stars, sail on a yacht or a sailboat along the Sea of Cortez or stay at a boutique hotel where every lodger is a special guest. Here, no detail is too small.

La Paz is made up of unique experiences like these and so much more... *We know you'll fall in love with all of them.*

WHALE SHARK

The Whale Shark, the world's largest and most impressive fish, makes its slow way around the Bay of La Paz between October and April. It's possible to swim with this giant every year, but only accompanied by a certified tour operator. Nothing compares with the thrill and the adrenaline rush of this particularly unforgettable experience.

ESPIRITU SANTO ISLAND

Our islands are one of our destination's top attractions. Thanks to their beauty and ecosystems, every year we welcome travelers from around the world who come to swim in the crystal-clear ocean, visit one of the most interesting sealion colonies on the planet, and enjoy a day relaxing on any of the white sand beaches with turquoise blue water.

This Island complex in the Gulf of California is a natural World Heritage Site within the UNESCO's Man and the Biosphere International Program, making it a highly protected area with nearly untouched natural landscapes. If you enjoy getting up-close and personal with marine life, you'll find few destinations with the variety of species that call this place home. There are several tour operators that can arrange overnight camping during season.

The tour to Espiritu Santo is an all-day deal. Keep an eye out on the ride: you'll spot dolphins, manta rays, and even imposing orcas. During season -September 1st to May 31st- you'll enjoy diving and frolicking with the sealions. Most tours include lunch on one of the idyllic beaches, where you can kayak, paddle board, snorkel, or simply lounge under a thatched-roof palapa and chill on the soft, white sand. It's an unforgettable place, you're going to fall in love!

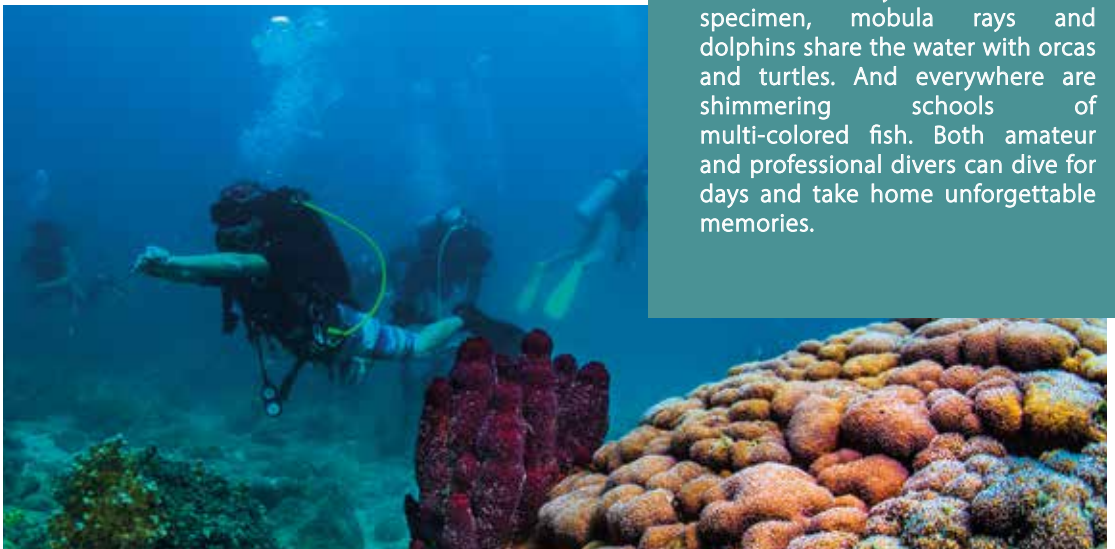

Activities on the islands: kayaking, snorkeling, diving, swimming with sea life, hiking, boating.

DIVING IN LA PAZ IS PURE HEAVEN

Fans of life beneath the waves will find over 20 dive sites teeming with impressive marine species. The Sea of Cortez is home to over 700 species of fish, 39% of the world's marine mammals, and a third of the whale species.

Giant manta rays glide by the islets; school of hammerhead sharks swim around a submerged mountain; a sea lion colony with over 400 specimen, mobula rays and dolphins share the water with orcas and turtles. And everywhere are shimmering schools of multi-colored fish. Both amateur and professional divers can dive for days and take home unforgettable memories.

GRAY WHALE

AN UNFORGETTABLE ENCOUNTER

Baja California Sur is home to the gray whales that travel yearly from the artic cold to our warm waters to begin and end their reproductive cycle. Hundreds of whales are born in this area during December, January and February, a region proudly considered a sanctuary for this incredible species. There are many places in this state where you can experience the magic of watching and sharing space with the whales and their calves and one of the best spots is here in La Paz, in a tiny fishing community called Puerto Chale.

A gray whale encounter will stir up a world of emotions, and when you embark from Puerto Chale, adventure is guaranteed: the waves are gentle, and the water shallow, making it an ideal place to admire the whales in all their splendor. Each trip is unique, and every experience is one-of-a-kind. Some whales are so friendly that they will come very close to the watchers, show off their calves, swim around the boats, flick their enormous tails and even allow their babes to touch visitors with their snouts. We recommend staying very still and avoiding touching them so as not to damage their skin. To enjoy this experience, you must purchase a tour in La Paz or have a car, as the location is two hours from the city along a narrow road.

TIP

The sighting season is from December to March, and the month of February is recommended.

Just around the corner stands the iconic Juárez Theater, and close to that is the new Museum of Modern Art, a historic building that was the first government house located across from the Velazco Garden. On the other side of the garden is our cathedral, built in 1861. The temple shows sober design of many of the Southern California missions. Built from pink quarry stone, inside is a replica of the tabernacle from the Basilica of St. Peter in Rome, among other valuable artifacts from the Colonial era.

Other must-see attractions include the Regional Museum of Anthropology and History, the Agora de La Paz plaza, and the maestro Justo Sierra State public Museum. The “El Progreso” gold mine attracted thousands of people from around the world who arrived to build the town and make their dreams of prosperity come true. Today, there are still remnants of that greatness in La Ramona, the stone chimney that can be seen from miles away; the museum of music with its exhibit of elegant pianos that livened up hundreds of evening gatherings; and the Ruta de Plata museum where visitors can learn much about the great history of these towns.

El Triunfo is a favorite for Sunday outings. Lunch at one of its delicious restaurants can be followed by a cup of coffee with a slice of fresh-baked bread, it's the perfect stop after a morning visit to the museums and a look at the town's glorious past. The trip is well worth it!
